

AQW 8742/09

Naomi Long has asked:

To ask the Minister of Education to detail (i) the number of nursery places available in each school; (ii) the number of places taken up in each school; and (iii) any oversubscription/ waiting lists for nursery places, broken down by Education and Library Board area, in each of the last three years.

The Education and Library Boards have advised the Department that (i) the number of nursery places available in each school; (ii) the number of places taken up in each school; and (iii) the oversubscription for nursery places, broken down by Education and Library Board area, in each of the last three years are as detailed in the tables below. Figures in respect of waiting lists are not held centrally, these are maintained by individual schools.

It should be noted that the level of oversubscription (iii) is not representative of the number of unplaced children. Parents can express a preference for more than one nursery place, therefore, application forms for pupils who have not been accepted for admission to their first preference school are made available to the parents' second preference school. This process is repeated for third preference schools etc until all places have been filled. Consequently, if the pupil has not been placed in one or more of the schools listed on the application form the pupil can be counted on more than one occasion.
